

# Genesys Meeting Center

ON DEMAND MULTIMEDIA CONFERENCING

## YOUR OWN VIRTUAL MEETING ROOM

Accomplish more in your workday with Genesys Meeting Center. Meet with colleagues, clients and customers from remote locations in your own multimedia virtual meeting room, without ever leaving your office. Genesys Meeting Center fully integrates audio, web and desktop video conferencing into one intuitive interface, using patented technology to ensure that audio and web are completely synchronized. Manage your meetings with simple "point" and "click" commands.

**All you need is a computer, Internet connectivity and a telephone or headset with a microphone.**

### CUSTOMIZABLE USER INTERFACE

- Configurable meeting interface options provides users with more flexibility.
- Quick Start menus guide first-time users on how to start or join a meeting.
- Preview your PowerPoint slides before showing them to the audience.

### INTERGRATES WITH YOUR EVERYDAY OFFICE TOOLS

- Support for Microsoft Office 2000 through 2007.
- Support for Microsoft Windows 2000, XP and Vista operating systems.

### IN-MEETING INVITE

Easily invite your participants while in a meeting with a simple click of a button.

### INVITE PARTICIPANTS USING OUTLOOK & LOTUS NOTES CALENDAR

- Simplified scheduling.
- Customized invite including language selection.
- Click link in invite to start or join meeting.

### DESKTOP VoIP

Genesys Desktop VoIP is a secure, low-bandwidth and firewall-friendly solution that uses Voice over Internet Protocol to connect moderators and participants to the audio portion of an online meeting. All you need is an Internet connection and headset with a microphone connected to your computer - and you're ready to meet!

### APPLICATION SHARING ENHANCEMENTS

Application Sharing has been enhanced for faster transitions while using less bandwidth.

### ENHANCED PARTICIPANT BROWSER & OPERATING SYSTEM SUPPORT

Participants can join meetings via numerous browsers and operating systems including:

- IE 6.0 + (Windows)
- Firefox 1.5 + (Windows/Mac/Linux)
- Safari 2.0 + (Mac)

### "ZOOM" FEATURE IN APP SHARE MODE

Participants can zoom in and out of a shared application to optimize their views.

### DESKTOP VIDEO "ON THE FLY"

Launch Desktop Video during your meetings.

### MEETING INTERFACE ENHANCEMENTS

- Improved navigation.
- User-friendly icons.
- Menu-driven interface.

### QUICKLY INVITE PARTICIPANTS WITH INSTANT MESSENGER

Invite participants using:

- MSN/Windows Live Messenger®
- Lotus Sametime Instant Messenger.
- Microsoft Office Communicator Instant Messenger.

### COMPREHENSIVE LANGUAGE SUPPORT

- All major European languages.
- Chinese (Traditional & Simplified) & Japanese languages.
